ATTACHMENT 01. STATEMENT OF WORK

Acquisition for the Supply of Liquid Nitrogen for Marshall Space Flight Center

January 16, 2014

STATEMENT OF WORK: MARSHALL SPACE FLIGHT CENTER (MSFC)

- (a) Scheduling and Delivery: MSFC shall provide at least 30 days advanced notice of planned testing and schedule for required LO2 support. Real-time results of testing will require short notice changes to delivery schedule. Changes to the delivery schedule should be expected. Delivery and acceptance of product will normally be made Monday through Friday, from 7:00 AM to 5:00 PM. However, under unusual circumstances, the Contractor agrees to deliver product 24 hours a day, 7 days a week, including holidays.
- (b) Clearance Procedures: Propellant delivery personnel do not require badges for entry. They are required to pass through the Gate 1 (Martin Rd) checkpoint and have all standard delivery paperwork in hand. They will then proceed to Building 4659 for weighing prior to offload.
- (c) Seals: MSFC requires the tanker to be sealed to prevent tampering; however, a serialized seal is not required.
- (d) Quantification of product delivered: Vendor will utilize certified scales at MSFC to determine quantity of product delivered.
- (e) MSFC responsibility during delivery: MSFC personnel have to be present to operate MSFC equipment during the delivery of liquid oxygen.
- (f) Receiving storage: Current facility storage containers to support testing include those which are listed below. However, the Government reserves the right to add, withdraw, change, or substitute receiving containers at any time during the life of the contract.

Location	Type	Facility	No. Of Tanks	Capacity each (Gallons)	Trailer Off-loading Stations
MSFC	Oxygen	4670	3	26,500	2

- (g) Trailer off-loading interface: 3" CGA fittings, CGA OX-300
- (h) MSFC points of contact will be specified on delivery orders.
